Career Services Assignment 2 – Elevator Pitch

Points possible: 50

Instructions: Follow the steps below to set up create and practice your elevator pitch. An elevator pitch is your answer to the interview question *Tell me about yourself*. Make sure you speak as if you are in an interview. Tailor your pitch to make it relevant to an interview for a software developer position.

1. Write your elevator pitch below. Your pitch should:

    a. be clear and concise

    b. be less than 30 seconds

    c. be a summary of who you are

    d. contain something personal (i.e. a hobby, passion, etc.)

My Elevator Pitch:

As a Biomed Technical engineer, I've worked with relational databases, load balancers, and servers to support medical practices. This experience has motivated me to learn backend development. I joined a cohort to learn this skill and got a bachelor's degree in computer science to increase my knowledge, repertoire, and expertise. I'm tenacious an aim to be an asset to your firm if hired., and expertise. I'm tenacious and I aim to be an asset to your firm!

2. Practice your elevator pitch out loud. Record your elevator pitch and upload it to the internet. You can use whichever tool you'd like to upload (Facebook, YouTube, DropBox, etc.), just make sure you can give someone a link to view the file. Paste the link to your uploaded recording below.
